

SYSTEM AND MEDIA FOR SIMPLIFYING WEB CONTENTS, AND METHOD THEREOF

Abstract of Disclosure

A technique for the simplification of Web pages in order to access necessary information rapidly, when displaying or outputting Web pages using a small screen device or a voice browser. A method for simplifying Web contents includes the steps of acquiring a target page subject to simplification, acquiring adjoining pages that adjoin the target page and performing a difference operation to delete objects that are common among the target page and the adjoining pages from the target page to generate a simplified page.
